## Tests of Two Town Wells Indicate 35 Gals. a Minute

### MRS. GEO. WALDROFF LAID TO REST HERE FRIDAY, OCTOBER 4

Funeral services for Mrs. Mary Gertrude Waldroff, who died in the Didsbury hospital on Tuesday, October 1st, were held from Knox United Church, Didsbury, on Friday, October 4th, with Rev. D. Whyte Smith officiating.

Interment followed in the Didsbury cemetery with Didsbury Funeral Home in charge of arrangements.

Mrs. Waldroff, who was 67 years of age, was born in Newington, Ont., and moved from Calgary to Cereal in 1910, and in 1933 the family moved to the Olds district. For the past year she has resided in Didsbury.

Surviving are her husband, Geo. A.; three sons, Edward W. of Didsbury, Lloyd A. of Hartmann and John Kenneth of Red Deer; three daughters, Mrs. M. Hoople of Yarmouth, Wash.; Mrs. E. Sibley of Edson; and Mrs. Laurie Mewha of Markerville, Alta.

The Senior and Junior W.A.'s of Knox United Church are holding a tea in Jimmy Glockin's store on Saturday afternoon, October 19th from 3 to 6 o'clock.

## LONG YEARS AGO

October 12, 1904

The Village of Ponoka has been incorporated into a town.

Smith's Department Store want 2000 bushels of potatoes and will pay 25 cents per bushel.

Mr. Reiner of Illinois has purchased the J. Burton farm, three miles east of town.

Standard I, part II—School Report—Minnie Blake, Levern Witter, Myrtle McLain, George Stanier, Bertha Cowitz, Floyd Kaatz, Charlie Mortimer, Anna Mueller, C. Melrose, teacher.

Waterloo School Report—Willie Miller, Seleda Frey, Samuel Goss, Herbert Shantz, Bert Cressman, Sarah Miller, Clayton Shantz, Clifford Hallman, Isaac Snyder, Stanley Stauffer, Addison Bolander, Hattie Stauffer, Willard Hallman, Vernon Shantz, Norman Weber, Clarence Frey, Claude Shantz, Ole Bolander, Gordon Weber, Vera Shantz, Clyde Stauffer, Wilfred Rennie.

## Terms of Canada Savings Bonds Announced by Finance Minister

Following are the terms of the Canada Savings Bond as announced by the Minister of Finance.

Backed by the resources of the Dominion.

Interest 2 1/2% by annual coupon. Price 100%.

Holdings by any one person limited to \$2000.

Redeemable at 100% plus interest at any time at any branch in Canada of any chartered bank upon identification of the registered holder.

Interest calculated monthly.

Dated November 1, 1946, maturing November 1, 1956.

Non-callable by the government.

Non-transferable and non-assignable.

Registered as to principal.

Issued in denominations of \$50, \$100, \$500 and \$1000.

Available commencing October 15th through banks, authorized investment dealers, stock brokers or trust or loan companies, or through employers on the Payroll Savings Plan.

### C.P.R. TRAIN TIME TABLE

Train No.	To Calgary
522	4:51 a.m.
524	11:54 a.m.
526	5:20 p.m.
Train No.	To Edmonton
521	1:10 a.m.
523	10:50 a.m.
525	6:19 p.m.

All the above trains are daily.

### FARMERS STRIKE ENDS

The 30-day non-delivery strike called by the Alberta Farmers' Union ended at midnight on October 6th and farmers supporting the Union can now deliver all farm products to market.

Carl Stimpfle, president of the Alberta Farmers' Union, who is now in Ottawa, says the strike is off, but action may be renewed in December if the federal government does not establish its fact-finding board to establish parity prices.

## GOVERNMENT GRANT IS AVAILABLE FOR SWIMMING POOLS

A regular, well attended meeting of the Lions Club was held on Thursday, October 3.

Major Buckley of the Salvation Army was present and was presented with a cheque for approximately \$200 by Mr. E. Wiggins, chairman of the local S.A. committee. Major Buckley thanked the people of the town and district for their generous support.

The highlight of the meeting was an address by Mr. H. Hammel, M.L.A., on the possibility of obtaining a grant for a swimming pool. Mr. Hammel informed the meeting that by following approved plans and building a pool that would pass government sanitary regulations, the Provincial government would give a grant of one-third of the cost of construction up to a maximum grant of \$7,000. He urged the members to proceed with plans so that a pool could be constructed here as soon as possible.

The highlight of the meeting was an address by Mr. H. Hammel, M.L.A., on the possibility of obtaining a grant for a swimming pool. Mr. Hammel informed the meeting that by following approved plans and building a pool that would pass government sanitary regulations, the Provincial government would give a grant of one-third of the cost of construction up to a maximum grant of \$7,000. He urged the members to proceed with plans so that a pool could be constructed here as soon as possible.

## NO ACTION TAKEN ON ESTABLISHING AIRPORT

At the Town Council meeting on Monday evening a communication from R.H. Gillingham and Associates was received offering advice and co-operation in preparing estimates for a landing strip near Didsbury, and the letter was tabled.

Secretary-treasurer F. L. Evans was appointed delegate to attend the Municipal Districts Convention in Edmonton on October 17 and 18.

The report on the test of water wells was received and deemed satisfactory. A summary of the report appears in another column.

Council approved of granting a license to A. Metzger and C. Malloch to open up a second hand store in the Fisher and Edwards building.

F.L. Evans was appointed enumerator to prepare the town of Didsbury list. Anyone residing in Didsbury prior to April 1, 1946, over 21 years of age and a British Subject, is eligible to be placed on the voters' list.

Council approved of granting a license to Elmer Cowitz to establish a machine shop in the F. Reichenbach building.

Monday, October 14 is Thanksgiving Holiday.

Monday, October 14 has been proclaimed Thanksgiving Day in Canada by the Governor-in-Council, and will be a Dominion holiday. All places of business will be closed.

Books may be closed on or after November 2nd at the discretion of the Minister of Finance.

Available for cash, on the Monthly Savings Plan, Payroll Savings Plan or by personal arrangement with a bank.

The interest rate of 2 1/2% bears out the forecast made by the Minister of Finance last June that terms would be more favorable than those of other comparable investments at the time of issue. The fact that the Canada Savings Bond is backed by the resources of the Dominion of Canada makes it the safest of all investments, and comparison can only properly be made with other Dominion of Canada issues.

A useful comparison in respect to yield is found in the 3% Dominion of Canada bonds maturing in 1959 and callable in 1956. The theoretical yield on these securities currently stands at approximately 2.43%. Thus the yield on Canada Savings Bonds at 2.75%, plus the feature of redemption on demand at any bank at 100%, makes the new security more attractive than any similar investment available today.

A comprehensive survey made in February showed that eight out of ten former buyers of Victory Bonds and War Savings Certificates intend to continue their war-time savings habits through the purchase of government securities. The Canada Savings Bond was created to meet this demand.

## CURLING CLUB TO PROVIDE DRAINAGE AT THE LOCAL RINK

At the executive meeting of the Didsbury Curling Club, held Thursday evening, October 3rd, the president, Ernie Clarke, proposed that a drainage system be constructed to drain off surplus water under the ice in winter time in an endeavor to prevent the curling ice from heaving, and this work was left in charge of the Ice Committee consisting of Ace Esler and J. Worlie.

J.W. Worlie and Art Reiber were appointed as a schedule committee.

Membership committee will consist of Jay Tangle, W. Gillette, N. Scott, Irvin Klein and Walter Fulkner.

Prospective curlers are asked to contact any member of the above committee if they planned to curl this coming winter.

It is planned to have a general meeting of the club the first part of November, when tenders will be called for caretaker, fees set, and other business attended to.

## F. W. LEESON PASSES IN LOCAL HOSPITAL MONDAY AFTERNOON

Francis Welborn Leeson, a resident of the Didsbury district for the past 28 years, died in the Didsbury hospital Monday afternoon.

Mr. Leeson was born in St. Thomas, Ont. and was 82 years of age. Since coming to the district he entered into the breeding of Holstein cattle and his quality stock was eagerly sought by breeders all over the country. In later years he was associated with his son, Carlton, and last year due to declining health Mr. Leeson sold his stock and equipment and retired from farming.

He was a member of Knox United Church, Didsbury, of the Canadian Order of Foresters, of the Holstein Association and for eight years was president of the Didsbury Agricultural Society, retiring from that position last year.

Surviving are his widow, Kate, of Didsbury; two sons, Robert B. of Edmonton, and G. Carlton, Didsbury; a daughter, Mrs. J.L. Field, Carleton Place, Ont.; two grand children and a sister, Mrs. L.M. Arneson, Winnipeg.

Funeral services will be held on Wednesday, October 9th, at 2 p.m. from Knox United Church, Didsbury, with Rev. D. Whyte Smith officiating. Interment will follow in the Didsbury cemetery with the Didsbury Funeral Home in charge of arrangements.

Father of local resident dies in Calgary hospital.

Lawrence Henry Irwin, 64, of Arrowwood, died in a Calgary hospital Friday morning, October 4th.

Father of Mrs. Harry McCullough of Didsbury, Mr. L.H. Irwin was in Teagarden, Ind. and in 1910 went to the Mito district where the family lived for five years before moving to the Arrowwood district.

The Polish Veterans will be brought to Canada under arrangements made by the Dominion Department of Labour. The newcomers will be men with previous agricultural experience who have been carefully selected by a committee whose members are familiar with the type of worker required. Those men coming to Alberta will help chiefly with the sugar beet and vegetable crops of the newcomers.

The Polish Veterans will be brought to Canada on the understanding that they will work in agriculture for a period of two years. Failure to live up to this agreement may result in their being returned to the country of origin. A farmer who makes application for the services of a Polish Veteran will agree to employ him for at least one year at going wages, which must be not less than \$45.00 per month on the average for the year.

Farmers who require the services of these men are advised to obtain application forms and farm labour orders as early as possible. Forms can be had from National Employment Offices, District Agriculturalists and local railway agents.

Surprise party Friday for Mr. and Mrs. Eldon Thebe.

On Friday evening, October 4th, about sixty friends gathered to surprise Mr. and Mrs. Eldon Thebe with a shower and a party.

A pleasant social hour was spent before the opening of the many gifts, after which a tasty lunch was served by Miss Marjorie Thebe.

Many good wishes were extended to the happy couple as the crowd dispersed.

Recent purchasers of new Mercury cars are Mr. Shultz and Herman Dagoforde.

## M.D. Mountain View Assessment \$12,352,077

Reeve A.L. Hoag, and Councillors Chas. Fox, Geo. Haag, Herman Rosellier, W.H. McLeod, Fred J. Nidrie and B.C. Trimble were all present when the Council of the Municipal District of Mountain View met on Monday, October 7th.

Secretary A. Brusco gave a report on the final results of the assessment, after the Court of Revision corrections were made, and this report showed that the total acreage of farm lands to be \$72,338, with an assessment value of \$12,352,077. This figures out an average assessment of \$14.15 per acre. The average per acre of the former assessment was \$13.30. The increase in assessment per acre, therefore, is 6.5 cents.

The business assessment is \$25,325, and total improvements in hamlets are assessed at \$186,145.

The secretary reported that up to the end of September 65% of the current taxes had been collected, and 40% of the arrears. Mr. Brusco also reported that material had been laid for two bridges, replacing structures on the south of S.E. of 230-35 on Beaver Dam Creek, and south of sec. 4-33-27-4, on Strathcona.

A request was made by the Dog Pound Local of Mt. View Ratepayers' Assn. for six miles of road to be graded and newly gravelled. Councillor Haag was appointed a committee to inspect the road and if possible to have the work done this fall.

A petition was received from farmers residing in Twp. 29, Range 27, W.4th, west of Aene, who requested the removal of the road.

Accounts and pay sheets completed the business of the meeting and Council adjourned to meet again on Thursday, November 7th.

Delivery of the new Austin Western motor patrol is expected this week and when it arrives will be put to work in the Crossfield area.

Council received a report that graveling had been completed east of Carstairs, and at the present time some gravel was being placed from Netok airport east, and from Zella school east, all in connection with government grants.

received hail damage, requesting that this area be inspected to ascertain if it would qualify for assistance under the Prairie Farmers' Assistance Act. The secretary was instructed to forward this request to P.F.A. authorities.

The Reeve and Secretary were appointed a committee to settle the dispute for a damage claim in connection with the impounding of two head of cattle.

Council approved the application of Steffen Bros. of Cremona for a license to establish a machine agency.

Reeve A.L. Hoag, Councillor Fred Metz and Sec. Treas. A. Brusco were appointed a delegation to meet with the members of the Central Alberta Association of Municipal Districts, to be held at Red Deer on October 19th.

Communication from the Director of Surveys pointed out that a heavy penalty can be imposed for removing iron posts or otherwise destroying survey monuments on road allowances and asked for co-operation of municipal authorities in protecting same, thereby avoiding unnecessary expense in future.

Delivery of the new Austin Western motor patrol is expected this week and when it arrives will be put to work in the Crossfield area.

## THRESHING AGAIN UNDER WAY—FOR HOW LONG?

Following last week's storm the weather again cleared Saturday and Monday morning a number of threshing outfits were again at work in the district. Oats and barley comprised most of the grain crops being threshed at the first of the week, but wheat is now being picked up and good weather is needed if the harvest is to be completed this month.

Strong warnings Monday indicated the weather has not yet settled and to date the harvest of grain crops has been a less than-outstanding in this part of the province.

## OCTOBER 6 TO 12 IS FIRE PREVENTION WEEK IN CANADA

There is more to fire prevention than reporting the gory details of death and destruction that results from carelessness and neglect. Fire Prevention can only be brought about by the individual responsible for fire hazards. So this brings the question of fire prevention right down to the home and place of business of every person.

A furnace, for instance, when properly installed is provided with insulation to eliminate overheating inflammable surroundings. The same applies to the electric or gas water heater. Even the electric iron has safety devices but individuals are responsible for their use. Electric wire is made as nearly foolproof and fireproof as possible, but again the human element can render its safeguard valueless by carelessness or neglect.

A guest in a hotel feels much safer sleeping in a room if he knows a sprinkler system is ready for instant use in the event of fire. Every home and building cannot afford a sprinkler system, but the occupants of such places can refrain from using pennies or other metal objects in place of fuses. The occupants of such places can see that all wiring and heating systems have needed attention, and they can clean up trash, dirty rugs, paint cans, paint brushes, oil, etc., which are all potential fire hazards.

The same rule applies for fire prevention as for health — "An ounce of prevention is worth a pound of cure." And nobody can, in most cases, provide the "prevention" that will forestall calamity.

## GIVE FORAGE CROPS A CHANCE

To avoid winter killing, don't pasture forage crops during the year they are seeded, warns J. E. Birdsell, Supervisor of Crop Improvement. Neither should established stands be pastured closely or cut for hay so late in the season that they go into winter with little growth. Sufficient growth is necessary to put food reserves into the roots to allow the plants to withstand the long period of winter dormancy. Pasturing after freeze-up however, will not harm the stand, but care should be taken not to pasture so closely as to reduce the stock holding capacity of the stand.

Crested wheat grass intended for hay should never be pastured in the fall since this practice results in reduction of yield. The total hay crop of Crested wheat grass is made up of the entire year's growth, not just the spring growth as is the case with most other forage crops.

You can talk to one man. Want ads talk to thousands.

The new customer walked into the store.

"How many chickens have you today?"

"Oh, about six, ma'am."

"Tough or tender?"

"Some are tough and some tender."

"Well, I keep boarders. Pick out three of the toughest, please."

To this unusual request the delighted grocer complied at once, saying, "Please ma'am, here are the tough ones."

Whereupon the customer coolly laid her hand on the others and said, "Then I'll take these."

—

Haginbottom's divorce case established the fact pretty clearly that he had frequently mistaken his bride for a punching bag.

Justice Wallace listened to the growing evidence and then said sternly:

"Haginbottom, you're a disgrace to your sex. I've decided to give your wife sixty dollars a week."

"That's mighty white of you. I'll try to slip her a buck or two once in a while myself."

—

As long as the money remains stable we will be able to maintain our trade; with cheap money our trade falls off and everyone suffers.

Inflation is the surest way to commit national suicide. A sound trade is our insurance against hard times.

—

Another party of Japanese who have been living in Canada have sailed for their homeland, it was announced recently by A. MacNara, Deputy Minister of Labor.

Numbering 523, these people were to have sailed on September 30th in the S.S. "Marine Falcon" from Vancouver, bound for Yokohama. The sailing was delayed for 24 hours, however, to allow the ship to take on marine strike-bound passengers from Seattle.

This is the fourth sailing of this type, which brings the total of Japanese who have left Canada to approximately 3,723.

## COUNTRY STORE

Remember the little store at the cross-roads mother and dad used to drive Saturday mornings, the back of the demoraal loaded with eggs packed in sawdust and fresh rolls of butter wrapped in a clean cloth, and covered with rhubarb leaves to keep them cool.

Once inside the store door you entered an enchanting world where barrels of ginger snaps and red apples sent out a heavy odor that you were to remember as long as you lived. On the shelves were jars filled with bright candy sticks and there were heavy overshoes and work clothing, warm mitts, and bolts of bright calico, fancy combs and pins for mother and the girls to admire and perhaps buy if the butter and egg money lasted long enough.

After the rolls of butter had been weighed and eggs counted, they were given the worth of them in trade—sugar, tea, turnip seed, baking powder, flour, a couple of yards of print for an apron, candy for a little boy.

That's what the little store held for them—Trade. Exchanging the fresh good produce they had in abundance for other commodities they needed to keep their little world going.

In the larger world in which we live trade is more important than ever, without it we could not survive. Canada is a vast wheat and cattle country. We produce millions of bushels of wheat more than we can use. Without export trade our stocks of hogs and cattle would swamp us in no time. We'd bog down in a mountain of eggs unless we could export them. Our wheat houses would burst with our surplus stocks if we couldn't sell them on the markets of the world.

Not only that we couldn't buy the merchandise we need unless we sold our own. Money works in two ways you know. Trade works exactly the same.

For instance: For the first seven months of the present year our export merchandise amounted to \$1,251,480,000; imports for the same length of time were valued \$1,141,490,000.

Wheat flour production this year has reached an all time high a little above two million barrels a month. The fruit crop estimate is also higher than the ten-year average. The apple crop is estimated at over 15 million bushels, 100 per cent higher than the 1945 crop.

Pears have staged a come back with an estimated 816,000 bushels. Peaches and plums 642,000 bushels, peaches are 60 per cent higher than the 10-year average, cherries, grapes, apricots have all made an effort to beat their own records.

Fowl recently shipped on the S.S. Manchester totaled 425,000 pounds. In the first seven months of 1946, forty-five million pounds of beef were sent to Britain alone with three million pounds for the Netherlands. Besides this, thirty million pounds of beef were used in the production of canned meats. These exports represent the product of 167,000 head of cattle. The good ship S.S. Corrales also loaded 58,000 cases of eggs for Britain last month.

That's the story of trade. A few dozen eggs, a few pounds of butter, a couple of dressed chickens, traded in at a little country store for sugar and spice, multiplied perhaps a million times into a nation's foreign trade. But the idea is the same, exchange of goods to the satisfaction of all concerned.

As long as the money remains stable we will be able to maintain our trade; with cheap money our trade falls off and everyone suffers. Inflation is the surest way to commit national suicide. A sound trade is our insurance against hard times.

## JAPANESE SAIL FOR JAPAN

Another party of Japanese who have been living in Canada have sailed for their homeland, it was announced recently by A. MacNara, Deputy Minister of Labor.

Numbering 523, these people were to have sailed on September 30th in the S.S. "Marine Falcon" from Vancouver, bound for Yokohama. The sailing was delayed for 24 hours, however, to allow the ship to take on marine strike-bound passengers from Seattle.

This is the fourth sailing of this type, which brings the total of Japanese who have left Canada to approximately 3,723.

## MRS. EZRA MEGLI DIES AT COWKIR CITY, KANSAS

Mrs. Ezra Megli (nee Viola Snyder) passed away on September 26, 1946 at the age of 35 years, one month and 10 days at Cowkirk City, Kansas.

Surviving are her husband and two children, Shirley S. and Loris; her father, Mr. Will Snyder of Didsbury; eight brothers, Oscar, Alfred, Charles and Morris of Didsbury, and Lloyd, Arthur, John and Alton of Carstairs; six sisters, Mrs. Stanley Kelsey and Ann of Carstairs, Mrs. Eric Gooding, Didsbury, Mrs. Harvey Wideman, Bergen, Mrs. Leonard Cooper, Red Deer, Mrs. Jack Gregory, Victoria, B.C. The funeral and burial was held in Cowkirk City on Monday, Sept. 30th.

## FISH AND GAME MEETING CANCELLED

The regular meeting of the Didsbury Fish and Game Association, scheduled for Monday, Oct. 14th, has been cancelled.

Business held over will be taken up at the November meeting.

## LET US GIVE THANKS

Have you anything to be thankful for? Come to the Young People's Program, Sunday, 7:45 p.m. at the M.B.C. Church and find out. We will look for you.

Those who have decided to give everything need never fear the loss of anything.

## NO PRICE INCREASE FOR MILK IN RESTAURANTS

"No change will be allowed in the price of milk by the glass or in the price of other dairy products affected by any milk control board decision to allow an increase in price of milk, without application to the Wartime Prices and Trade Board Services Administration."

Mr. H. J. Roche, services officer for the Alberta region, emphasized today.

Mr. Roche also made it clear that such applications would not be considered unless the overall picture of any business warranted an increase.

"Restaurants are not in the business of selling milk by the glass," Mr. Roche pointed out. "They are in business to sell meals. Just because there has been an increase in the price of milk as has been the case with other foods too, restaur-

ant operators may not raise the price on any part of the meals they sell."

# IMPERIAL NAPHTHA

the clean trouble-free fuel!

## For Gasoline Lanterns, Lamps, Irons and Stoves

The following letter from the Head Office of the Coleman  
Lamp and Stove Co. Limited speaks for itself:

"During the past several years it has been our policy from time to time to have our laboratory make a series of tests on Imperial Naphtha. After careful analysis each time we have found that Imperial Naphtha has all the qualities so essential in a fuel that is to be used in gasoline lamps, lanterns, irons, stoves, blow torches, and similar products. We highly recommend it for use in Coleman gasoline appliances. In our correspondence with dealers and customers we invariably mention Imperial Naphtha by name."

For greatest satisfaction always use Imperial Naphtha

## Divide Your Dollar With Your Neighbor

Everybody has a certain amount of civic pride—that sort of pride which helps make a village a town, and a town a metropolitan city.  
The growth of any community is dependent upon the support given its citizens. If you fail in your co-operation, your town either stands still or goes back.

If you uphold your town by sustaining it wholeheartedly, you help yourself and the community. Buy at home! Be neighborly with your dollar. Divide your dollars among your merchants and others who have the interests of Didsbury at heart. Help them and they will help you to greater values—for increased volume means decreased costs.

DIDSBURY needs your support and you need the support of the town. Let's get together and share our dollars for a mutual prosperity.

**The Didsbury Pioneer**

## Economical Housewives

There was a day when the housewives bought the far away "bargain" in the belief that it was good business to save a few pennies. But experience taught them a few things. Today's housewives do not buy blindly. They examine the article first and when satisfied with the product they pay a fair price at home. It is economical to make your purchases in

## MEAT, BUTTER COUPONS INVALID ON OCTOBER 31

Meat coupons Q-1 to Q-4 in the No. 5 Ration Book and M-31 to M-35 in the new book and butter coupons R-18 to R-21 in the old book and B-28 to B-29 in the new, will become invalid for the purchase of these commodities after October 31, the Ration Administration of the Wartime Prices and Trade Board announced today.

At the same time all temporary ration coupons for butter, meat, and sugar, unnumbered and bearing a beaver design, will also expire in the hands of consumers. "Beaver" coupons for evaporated milk, only, will continue to be valid.

Consumers holding unused "Beaver" coupons may, on application to the Local Ration Board, have them exchanged for the newly-issued "Buffalo" coupons.

We are all the same underneath but some keep themselves further underneath than others. Fillers

No one can get the best of you unless you let them play upon your worst.

## VOLUNTARY T. B. MOVEMENT GROWS STRONGER

Fifty years ago the tuberculosis death rate was nearly five times what it is today, according to Eric Connelly, president of the Alberta Tuberculosis Association. Over thirty-three thousand people survived in this country last year who would have died of tuberculosis had this decline in the death rate not occurred.

"The voluntary tuberculosis associations have been to a large extent responsible for the increasing public support of tuberculosis control efforts," said Mr. Connelly.

In Alberta there is one provincial association, with local committees or branches in Calgary, Edmonton, Lethbridge, Medicine Hat, Red Deer, Cardston and Banff. All the activities of these voluntary organizations are financed solely by the annual sale of Christmas Seals.

Mr. Connelly is also president of the Calgary Tuberculosis Association, which is cooperating closely with the Department of Health and the Alberta Tuberculosis Association in conducting the first all-out, 100% chest X-ray survey in Alberta to be held in Calgary during the coming winter.

Pay for it with a low-cost  
**FARM IMPROVEMENT LOAN**  
Repay by convenient instalments

Farm Improvement Loans for many useful purposes are available at any branch of The Royal Bank of Canada. Take advantage of this attractive financial plan to improve your property and your living conditions. New Buildings, Improvements, Repairs and Extensions can also be financed through a farm improvement loan.

## A NOTABLE ANNIVERSARY

By H. G. L. Strange

This year, 1948, is the 40th anniversary of the first visit made by Dominion Cerealist, Dr. L. H. Newman to the Dominion Experimental Farm at Indian Head. I had the pleasure of accompanying Dr. Newman on his visit this year and I could see that through his mind was running the memory of the great advances that have been made on this fine Dominion Experimental Farm in 40 years, advances that have so materially contributed to the improvement in the welfare of our prairie farmers. I could see how he was thinking of the many cereal varieties that had been tested and tried over the years at this Experimental Farm. Take the march of wheats alone—Red Fife, Early Red Fife, Pioneer, Marquis, Ruby, Reward, Red Bolt, Reliance, Canus, then Thatcher, Regent, Renown, Apex, and now Redman and Rescue. Each of these varieties were painstakingly chosen out of thousands of selections. Each, however, finally to be displaced by still another and better wheat. Even today the battle is not over; for Dr. Newman showed me still superior sorts of wheats, oats, barleys and flax now on test, most of which, I was informed elsewhere, being the result of his own and his fellow workers' efforts. What a great service to Agriculture in 40 years this modest but distinguished scientist has rendered. He has labored long and faithfully in the vineyard. He deserves well of this country of Canada.

## EGGS BY SHIPLOADS

Canada's storage eggs should arrive in Britain this season in the finest possible condition, because they are being handled entirely under refrigeration from start to finish. Refrigerated and packed at storage temperatures, they are sent to seaboard in heavily iced cars, and shipped to Britain in refrigerated ships by the complete shipload. The advantage of using this new method of the full shipload is that the whole load can be dealt with as one unit and therefore under complete control before and during the voyage and onwards to storage in the United Kingdom.

## GENERAL

- Q What are Canada Savings Bonds?**  
**A** Canada Savings Bonds are the successor to Victory Bonds and War Savings Certificates. They are your country's promise to return your money to you at any time and to pay you interest at an attractive rate.
- Q Why are Canada Savings Bonds being offered?**  
**A** Because during the war, millions of Canadians learned the savings habit by buying Victory Bonds and War Savings Certificates. A recent survey shows that 82% of them want to keep on saving by a similar plan.
- Q Is the Government selling Canada Savings Bonds just to raise money?**  
**A** No. Borrowing needs of the Government can be met by other types of loans. The main purpose of the Canada Savings Bond is to provide Canadians with a convenient way to continue this kind of saving and investment in peacetime.
- Q Is there any limit to the amount of Canada Savings Bonds that one person may hold? If so, why?**  
**A** Yes. There is a limit of \$2,000 for each individual, but each member of a family may hold bonds up to the limit.
- Q What is the price of Canada Savings Bonds?**  
**A** 100%. That is, a \$100 bond costs \$100. If payment is not completed on or before November 15th, 1948, interest will be added to the purchase price.
- Q In what denominations are Canada Savings Bonds available?**  
**A** \$50, \$100, \$500 and \$1,000.

## CASHING OF BONDS

- Q Can I cash my bond at any time before November 1, 1948?**  
**A** Yes, any branch in Canada of any chartered bank will cash your bond immediately at full face value, plus interest at 2 1/2%, upon your identification as the registered holder.
- Q Can Canada Savings Bonds be assigned or transferred?**  
**A** They can be cashed, but not assigned or transferred. This is necessary to prevent any individual from acquiring more than the authorized limit.

## INTEREST COUPONS

- Q What interest is paid on Canada Savings Bonds?**  
**A** 2 1/2%—payable yearly on November 1st from 1947 to 1956, by coupon payable without charge at any branch in Canada of any bank.
- Q Are interest coupons registered?**  
**A** No. They are payable to bearer.

## REGISTRATION PROTECTION

- Q Why is it necessary to register Canada Savings Bonds?**  
**A** Registration gives protection in case your bond is lost, stolen or destroyed. It is also the simplest way to ensure that individuals do not hold more than the \$2,000 limit.
- Q In whose name can Canada Savings Bonds be registered?**  
**A** They can be registered only in the name of one individual, adult or minor, up to the amount of the authorized limit.

- Q Can Canada Savings Bonds registered in the name of a child be cashed?**  
**A** Yes. Banks are familiar with the necessary regulations.
- Q Can Canada Savings Bonds be disposed of when registered in the name of a deceased person?**  
**A** Yes, any bank will supply the necessary information.
- Q Can I replace my Canada Savings Bonds, if they are lost, stolen or destroyed?**  
**A** Yes. It is wise, however, to keep Canada Savings Bonds in a safe place, as you would any other valuable documents. In case of loss you should immediately notify the Bank of Canada, Ottawa, of the circumstances.

## HOW, WHEN AND WHERE TO BUY

- Q Where can I buy Canada Savings Bonds?**  
**A** At any branch of a bank or from an authorized investment dealer, stock broker, trust or loan company—or through the payroll savings plan if this is in operation at your place of employment.
- Q How do I pay for Canada Savings Bonds?**  
**A** In any of the following 3 ways:
1. By payment in full at time of purchase.
  2. By monthly instalments through a bank, trust or loan company.
  3. By regular deductions from pay, where employers operate the Payroll Savings Plan.

8 out of 10

## -: NEWS OF THE DISTRICT -:

## BURNSIDE NEWS NOTES

Arnold McCulloch left to take a course at the School of Technology in Calgary. He was fortunate in obtaining a boarding place at the home of Jack Bolton.

Mrs. Swanson is spending a few days at the home of Mrs. Bert Pross.

Mrs. Pross was busy again giving a helping hand at the Marsh farm last week.

Lewis McCulloch was fortunate enough to bring in a "gusher" (gas) well during the past week at Brooks, Alta. Whilst congratulating Lewis on his success, I wish he would come home and bring one in here.

Mrs. Joe Clarke went to Calgary last week to receive medical treatment.

Mrs. Wood, accompanied by Miss Zook, left on Monday for a vacation in Calgary, Banff and Edmonton.

## HORSE SENSE

Horse sense, or good judgement, cannot easily be taught, but must rather be the product of example and demonstration until a logical thought becomes second nature.

## PLEASE PHONE OR BRING IN YOUR NEWS ITEMS

This newspaper cannot make a house to house canvass for news, but it is always glad to have it phoned or handed in. We want all the news. We are just as pleased to mention your guests or your visit as to mention doings of your neighbors—but maybe your neighbors co-operated with us in getting the facts. Please let us have your news items. Our columns are always open to them. And remember they must be in before Tuesday noon, if at all possible.

## FALLEN TIMBER NOTES

Mr. Howard Steen has increased the size of his ranch by the purchase of the S.E. 1/4 of 2-31-6-5 from Mrs. Wm. McGaffin.

The Busy Bees of Fallen Timber met at the home of Mrs. Wm. McGaffin on Tuesday last. Present were twelve women, eleven babies and four men.

Alex Moore says his jeep will not push trees over 14 inches in diameter out of the way unless he gets a downhill run at them.

Hunters of small game report that birds are scarce in this neighborhood.

Wayne Roberts says not many cranberries this year.

Mrs. Moore will hold her usual service in the school house next Sunday.

On Saturday last Dr. Paul paid a professional visit to the district.

Joe McGaffin and family were Sunday visitors at the home of Lester Brunn, south west of Carstairs.

Mr. and Mrs. P.I. Hone have a wonderful flower and vegetable garden. Their cabbage and cauliflower cannot be excelled.

Barry McMullen spent the week end at the home of his parents. He is attending high school at Sylvan Lake.

Bill Dick Jr. and Don McMullen took in the Didsbury highlights on Saturday night.

We are glad to hear that the "Oil Explorers" have found a different road to return on. They found the Big Red opposite the old Dick Brown ranch and travel back on the Sundre highway. The people in the district are thankful for small favors.

## THE BLESSINGS OF FREER TRADE

(By H.G.L. Strange)  
Mr. Hugh Dalton, Chancellor of the Exchequer for the British Labour Government of September 24th informed a press conference at Ottawa that Britain was anxious to get multi-lateral world trading established at the earliest possible moment. He believed, he said, in much freer world trade.

On August 15th, before the Paris Peace Conference, the Honorable Mr. Alexander, one of Britain's official delegates to that Conference, stated the firm opposition of the British Government to bi-lateral trading between individual countries, which he said, was restrictive in nature. Here Mr. Alexander too expressed himself in favour of multi-lateral trading and freer international trade.

This is all mighty good news for our prairie farmers to hear, for the simple cold fact is that there does not exist anywhere in the world a group of three million people, living and working in one farming area, who depend so much for their prosperity on freer international trade as do our prairie people, or who stand to be harmed so much by these vicious bi-lateral trade agreements which Britain has already made are merely temporary expedients, and that they will be abrogated as soon as freer international trade can be set up in this sad, complex, worried economic world. In the meantime, Canada could well set an example by lowering her own tariffs against British and foreign goods.

EVANGELICAL CHURCH  
Rev. A. J. Grams, Pastor  
Sunday, October 13:  
10:30 a.m. Harvest Home and Thanksgiving service.  
11:30 a.m. Sunday School.  
7:45 p.m. Evening Service  
Wednesdays:  
8:00 p.m. Prayer Service.  
Fridays:  
8:00 p.m. Young People's Meeting.

## NOTES FROM THE EAST

Mrs. Joe Clarke, together with Mr. and Mrs. Pete Shumaker were Calgary visitors for the week end, while Pete overhauled his truck. Mrs. Clarke visited with her son while in the city.

The scare of the mumps seemingly has passed over, at least for the time being.

Mrs. Marvel Sullivan is to have a chicken supper this Friday evening from 5 p.m. until 10 p.m. at Marvel's Coffee Shop at Sunny-slope.

Mrs. Dowell, Roy and Evelyn, and Fred Metz were guests at the home of Mr. and Mrs. Ed Tidball of Carstairs on Sunday. Mrs. Hansen Sr., mother of Mrs. Tidball and Mrs. Dowell, just arrived at Carstairs to make her home with the former. Another Mr. and Mrs. Hansen left on Monday after accompanying Mrs. Hansen Sr. on her trip.

Mr. and Mrs. Earl Wood spent a day in Calgary this week as business visitors.

Mr. and Mrs. Lynn Hunsperger and Sharon were visitors at Mrs. Hunsperger's home, Mrs. B. A. Wood, on Sunday last.

Mr. and Mrs. James Sheils of Didsbury spent Sunday visiting at the homes of their sons, Harold, Rach and Bruce.

Mr. C.F. Dooley spent a couple of days near Olds on the Coates farm. His plans were to get some ducks, but it rained, and rained some more. So Mr. Dooley and Art Coates returned to Calgary and spent the week end there, enjoying a wrestling match and bowling.

## BERGEN NEWS NOTES

Iva McCue was home for a few days. She is staying with her grand parents at Bowden.

Norman Cook was in the valley last week, buying cattle.

Doris Barker is home for a visit. She intends to be married on October 12th.

Norman Dipple has been stooking for Lloyd Stauffer.

The Bergen school children are taking their courses by correspondence.

Rev. Will Annette of Sundre will attend Red Deer Bible school, and Rev. A. Habermehl will probably preach at McDougall Flats and at Sundre on Sunday evening.

George Savage has a nice building at Sundre for his bakery.

Harvey Wideman is helping Noah Swalm with his threshing.

## WESTCOTT NEWS NOTES

Ruby Daseford is steadily improving in health. The Didsbury hospital and is expected to be home soon.

Mr. and Mrs. Henry Snyder, Ruthie and Roger of Delta, former Westcott residents, arrived here last week end to spend a few days with friends and relatives. On Monday Mrs. Herbert Goetjen accompanied them to Olds.

Wesley and Cecil Panke of Elkton were Sunday visitors at their sister's, Mrs. Herbert Goetjen.

It was quite a surprise we got on Sunday morning when we turned on our radio to hear the Neighbourly News commentator, we presume it's a C.B.C. feature, going into detail about the Didsbury Grade X initiation party. It sort of made us feel that we had missed a lot of fun.

We hear Herman Daseford has purchased a new Mercury car.

Stooks were still wet on Monday morning last but combining was going fine and little was said about swaths being wet. We did see a little dust around Westcott from the occasional threshing machine though.

WORLD HAPPENINGS  
BRIEFLY TOLD

Norwegian shipowners have ordered 10 cargo vessels totaling 71,500 tons from East of Scotland builders.

Albert Alcock made a tour from Hinkley, England, through Wales in a 1901 car without a breakdown.

Nearly all the huts on disused aircraft sites around Sheffield, England, have been taken over by 100 families of "squatters".

Animal keepers with less than 10 years' service will receive lectures on the care and feeding of animals at London Zoo this winter.

The London Daily Express asserted that King George II of Greece will receive a weekly salary of \$4,000, to be paid by the Greek government.

A 14-year-old German boy, Manfred Derts, stowed away to England to look for members of the Cameron Highlanders, whose mascot he had been in Berlin.

Large quantities of manna have been exported from Italy to the United States recently. It is abundant in Southern Italy and Sicily, and is used medicinally.

Brought and other unfavorable rumors has forced the president of the Supreme Soviet to postpone the end of bread rationing in Russia until next year, radio Moscow reported.

Hong Kong celebrated with a military parade, thanksgiving services and the issue of a special set of stamps, the first anniversary of its liberation after 3½ years of Japanese occupation.

## Ensures More Safety

Pilot Feels Better When Flying at High Altitude

With the advent of the jet-propelled planes, selected Royal Air Force pilots have achieved speeds of over 620 miles an hour. The uninitiated might believe that such speed is dangerous in itself, but one of the pilots when questioned about how he felt stated that "there's nothing to it." Scientific equipment prevents the pilot from "blacking out".

There are thousands of planes in service today crossing oceans and continents at cruising speeds of 300 to 350 miles an hour, and they are rarely an accident through the machine cracking up in the air.

Flying was just coming into vogue about 40 years ago, but the only safe way for passenger transport was by the pilot for the sake of the thrill. Planes were not then deemed safe enough for passenger transport.

Speeds were slow in those days. When the Schneider Cup contest was held down for the fastest mile in 1912, the winning plane recorded a speed of 44½ miles.

It was back in those days, and for two or three years after, that so many pioneer aviators were killed. Of course the machines were comparatively primitive, but it was the slow rate of speed that made it so hard to keep the plane up and caused such a high percentage of crashes.

High speeds and high altitudes are safety factors. With a high altitude, a pilot has more time and space in which to regain control.

—St. Thomas Times-Journal.

## New Time-Savers

Will Enable Women To Do Housework With Greater Speed

Electronic experts, chemists, food economists and other authorities agree that the day will soon be here when the Canadian housewife will be doing her cooking, cleaning, sewing, laundry and other tasks in much shorter time than ever before. This prediction is based on the large number of household improvements currently being produced and ready on the post-war market. These include new time-saving devices in vacuum cleaners, pressure cookers, sewing machines, to say nothing of the tremendous forward strides taken in the field of chemistry.

A prime example of the latter is an amazing new household cleaner that requires no rinsing and no wiping. It cleans all painted, varnished, enameled and linoleum surfaces in exactly half the usual cleaning time. Its secret is a special formula which picks up the dirt and transfers it to the cloth, leaving the surface sparkling clean with no soapy streaks or sudsy cloth marks. Thus, there is no need to go over the cleaned surface again to rinse and over again to wipe it dry.

The housewife merely dissolves some of the cleaner in hot water, wrings out a soft cloth well and goes over the surface with a few easy rubs. Painted walls, woodwork, linoleum and the like come clean almost instantly. Even stubborn spots like greasy smudges and rubber heel scuff marks disappear quickly and easily.

Another feature of this new product is its ability to make the next cleaning even easier, because it leaves a protective coat that seals out dust and dirt. Also, it's safe for paint, and safe for the hands.

The best way to dry out a wet fur coat is to suspend it from a padded hanger in a slight draft after brushing it thoroughly.

## ANCIENT TOMB

Grin Story Reconstructed From Discoveries In Peru

VIRU VALLEY, Peru.—American scientists in Northern Peru have discovered an ancient tomb that tells the grim story of a quadruple murder some 2,300 years ago.

While digging through the ruins of ancient cities, two Columbia University anthropologists a few days ago found upon the tomb of a warrior-priest. He, obviously, was of high standing in the Mochea tribe around 300 to 200 B.C.

Murdered and buried with him were two women from his retinue, a 10 or 12 year old boy and an unidentified man. The warrior-priest, known as "a fanged deity", wore regal robes, a copper mask set with turquoise gems and beside him was an infant war mace of kindly design. The discovery was made by Dr. W. Dunham Strong and his assistant, Clifford Evans. Strong was formerly on the staff of the Chicago Natural History Museum. Evans, just out of the air corps, spent 11 months in a German prison camp. He is from Los Angeles.

The spines of the women were twisted. Evans said. It was obvious that they had been stuffed into the tomb at the end of a pompous ceremony for the chieftain. Apparently, they were favorites of the chief.

The warrior-priest's mace and the pieces of handicraft show him always with a page boy. So, we assumed that the youngster had been the old man's court companion.

The fourth body was that of a younger man. His identity has remained a mystery. The skull of the boy was unusually large. At first we thought he was a dwarf, but closer examination indicated that he was a youngster.

Seven other scientists, working here in Viru Valley, some 275 miles from Lima, also have studied the so-called tomb. The historical importance of which has not yet been evaluated.

From a study of the tomb the scientists arrived at the conclusion that the death of the Mochea chieftain had meant that his top court favorites also must die.

The chief, whom the scientists nicknamed "Old Omnipotent", apparently died of old age. Reconstruction of the scene indicated that the women undoubtedly knew they were to be sacrificed and buried with him.

Since it is known that intoxicants were used in those days to deaden the senses of both the living and the dead, it is believed that the women had been drunk on native brew, buried alive, or strangled while intoxicated and then interred.

The method of killing the boy and young man remained undetermined.

The bodies and trappings were well preserved because the sands in Viru Valley are rich with nitrate. When the scientists touched the body of Old Omnipotent and his companions their remains felt to powder. The other scientists working here represent the Chicago Natural History Museum, Smithsonian Institution, Guggenheim Foundation and the American Museum of Natural History in New York. University's representative in the field already has returned to the United States.—Chicago Daily News.

## Was Rarely Used

Hitler Visited His Magnificent Eagle's Nest Only Five Times

BERGHEGGEN.—Think no more of 1,000,000,000 properties, of broken down used cars at \$1,500—once upon a time here cost \$25,000 a cup.

Heinz Koenner, former Wehrmacht soldier now employed at the Fuehrer's "eagle nest" atop the mountain, provided this information. This young German had been here when the place was restricted to super-selected clientele, although he labored hard to get the impression that he had spent much time as a prisoner of war in Italy.

Heinz said Hitler visited this dizzy retreat only five times, that Goering had been here only three, and Martin Bormann, the deputy Fuehrer, only 10 times in all.

Heinz said the retreat never was used except to entertain at tea those "guests" who had settled some deal with the Fuehrer at the Obersalzberg chalet several thousand feet below. Heinz said that the retreat had cost \$2,000,000.

Eighteen visits by the three Nazi big shots probably came to about 100 cups of tea. The \$25,000 a cup in tough figures in any language. You can't get any tea at Bergheggen now, or even a drink of water.

There is a big sign at Bergheggen that says: "Property of United States Military Government. But don't believe that for a minute. The Germans think they own it."

## TRUE TO FORM

The Letbridge Herald says now that Parliament has decided we may throw away those old registration cards we suppose that human nature being what it is, we'll continue to carry them just for cussedness.

The Christian community at Rome is believed to have been founded sometime between the years 41 and 54.

**TOP CASSEROLES WITH CRUMBS.**—Practically all casserole dishes are made here appetizing and delicious by the addition of a topping of well-seasoned crumbs. Sometimes the crumb mixture is combined with grated cheese, sometimes with salt, pepper and paprika.

A secret which modern cooks are adopting these days for all sorts of dishes which call for dry crumbs is that of using corn flakes or oven-popped rice cereal for this purpose. Always available, convenient, easy to use, these crisp cereals are a delightful timesaver for busy hostesses.

The easiest way to make crumbs of the proper "au gratin" texture is to pour the cereal into a fresh tea towel, fold the sides over the cereal and roll the towel up, pressing down to crush the cereal. If fine crumbs are desired, open the towel and roll crumbs with rolling pin. This operation requires only a few seconds, and produces crumbs of fine texture, crisp and flavorful.

Not only do casserole dishes of various types require the addition of crumbs, but many fried foods, too, take on a crispy brown goodness when they're dipped in cereal crumbs.

**Macaroni And Cheese With Crumb Topping.**  
1 cup broken macaroni  
2 tablespoons shortening  
3 tablespoons butter  
2 cups corn flakes  
1 teaspoon salt  
1 teaspoon pepper

Cook macaroni in boiling salted water until tender, about 15 minutes. Drain well. Melt shortening over hot water; stir in butter and seasonings. Add macaroni, mix thoroughly. Combine sauce with drained macaroni and pour into greased casserole. Mix finely crushed corn flakes with butter and sprinkle over top of macaroni. Bake in moderately hot oven 400 deg. F. about 20 minutes. Yield: Four servings.

## May Be Just Symbol

But Many Men Believe In Tradition Of Drake's Drum

According to Lieutenant Commander Peter Cranshaw, R.N., who writes in a British Infantry magazine bulletin, there are many men still alive who claim to have heard Drake's drum. It beat at Tratalgar, he says, and it beat at Jutland when the cruiser Queen Mary blew up. The shipper of a cabin cruiser which was nosing into Dunkirk at the time of the evacuation heard something like the beating of a pom-pom, but there were no aircraft overhead and no pom-pom was firing.

A veteran navy man assured his skipper that it was Drake's drum "not beats when the British Navy is in a tough place. Cheer you up like that." In 1940, when invasion hung over England, Commander Cranshaw was aboard a destroyer going out from Plymouth. As he passed Drake's Island, he says, he is almost certain he heard the drum.

It may have been, he admits, "the beating, pulsing heart of a proud little ship, or even perhaps of a proud people." And, heard or unheard, the drum is the symbol of a great tradition. New York Herald Tribune.

For many years, comets were called "hairy" stars and considered omens of ill luck. More than 20,000 craters have been counted on the moon.

## Car Drivers

Are Men Or Women Safer At The Wheel?

The safe-driving campaign, as conducted in the Daily News is paying dividends.

As an entertaining battle-of-the-sexes, it has drawn sharply to the attention of both men and women the consequences of carelessness behind the wheel.

Incidentally, the campaign is well on the way toward providing an answer to the question, "Are men or women better drivers?" Men, according to the box score reading so far, are by and large more skillful at the wheel, but women take fewer chances.—Chicago Daily News.

## Rapid Work

The Girl Believed The Counter Had The Answer

An excited woman threw a fabled apron on the counter in a shop. "Look at this!" she cried. "Just look at it!"

"I'm looking at it," said the girl behind the counter. "What about it?"

"What about it?" shouted the woman. "Why when you sold me that apron you said its color was fast. And what happened? The color came out at the very first washing!"

The girl looked surprised.

"Well," she inquired, "wasn't that fast?"

## LIFE'S LIKE THAT

By Fred Neher

"Our husbands are getting turnips and sweet corn out of their gardens—why shouldn't autumn be the harvest season for us too?"

## REG'LAR FELLERS—The Good Neighbor

## WAGING A STRIKE

Many Industries May Be Closed Down In Canada

A little group of 400 strikers among the 37,000 on the picket lines across Canada today are waging a strike which, if prolonged, will have a paralyzing effect on Canadian industry and employment.

They are not rubber, brass, steel or auto workers. In fact, all the strikers in these industries could go back to work and Canadian industry would still be reeling—if the strike at Brunner Mond Canada Ltd. in Amherstburg should last a month or longer. It has already been going since July 12.

Ever hear of soda ash? Technically known as sodium carbonate, it is a white powder that is sold in 100-pound bags. It enters into the manufacture of almost every commodity you can think of, and the Brunner Mond Company is the only one in Canada which manufactures soda ash.

This white powder is an important ingredient in the following industries: Glass, mining, textiles, chemicals, soap, fertilizer, gunpowder, and the refining of uranium at Port Hope and the building of highways.

Closing down the glass industry, without a stock of workmen employed in that line, but thousands more who earn their living in breweries, and soft drink firms will be affected if a bottle shortage develops. And the construction industry also will be hit, if there is no glass for windows. Ditto automobiles, and others.

When the full effect of the soda ash famine is felt in the textile industry, it will mean more than another scarcity of shirts, socks, underwear and other clothing. Textiles, such as rayon, are used in the manufacture of rubber tires. There is now a tire shortage because of the rubber strike, but if the rubber strike ended, a textile shortage could still slow down tire output.

Soap is another commodity in short supply, and that condition will become worse once the soda ash situation grows serious. About 25 per cent of the soda ash output from Brunner Mond goes into soap making.

The caustic soda derivative of soda ash is used in the manufacture of explosives which are important in mining, highway construction and clearing farm land.

R. G. Zimmer, general superintendent of Brunner Mond, said that he had no way of knowing whether soda ash supplies in such industries as glass and soap are near the exhaustion point. But he estimated that if the strike continued much longer the situation might be critical, restricting or closing down several industries.

The strike was called by Local 89 of the United Auto Workers (UAW), with the principal demands a wage increase of \$2 a day and a 40-hour week. Attempts at mediation through a Government commission have failed.

## POLIO A SERIOUS THREAT

The present outbreak of poliomyelitis in scattered sections of Canada is tragic—tragic in that it is killing and crippling many of its unfortunate victims, the Health League of Canada said in a recent statement. It added, however, that it should be emphasized that it is important that at this time Canadians do not lose sight of the fact that there are other diseases—preventable diseases—against which in and year out take a greater toll than poliomyelitis.

The statement said that while it is tragic that medical science has been unsuccessful in attempts to develop a preventive for poliomyelitis, it also is tragic that the Canadian public does not co-operate 100 per cent, in using the available means to wipe out or curb diseases which are either wholly or partially preventable.

It was pointed out that thousands of lives have been saved by the use of toxoid, which is almost 100 per cent effective as a diphtheria immunizing agent. There is whooping cough vaccine which is 80 per cent effective, and in cases where immunized persons do contract whooping cough, the attacks are much milder. Scarlet fever's immunizing agent is a toxin which is 80 per cent effective.

"However, despite the availability of these protective measures, the diseases concerned still menace the health of Canada's population, children particularly," the statement said. "As long as parents neglect to have their children immunized by these effective agents, these particular diseases will continue to prove a greater menace than polio, except in years when the latter is in severe epidemic stage."

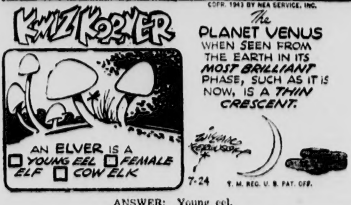

The statement said a review of figures supplied by the Dominion Bureau of Statistics reveals that during the first 29 weeks of 1946 there were reported in Canada 65 cases of poliomyelitis, 5,533 cases of scarlet fever, 4,123 of whooping cough and 1,234 of diphtheria.

It pointed out further that smallpox still could do a lot of damage if it ever became epidemic among the thousands of persons who have not been vaccinated. It was true there were only five cases in 1945 and no deaths—the first cases in some years—but recently there had been an outbreak on the Pacific Coast. Mass vaccination of thousands of citizens probably had prevented an outbreak epidemic in proportion.

### A Handy Tip

**Janitors Have An Easy Way To Wash Painted Walls**

Stop! Don't wash that wall from the top down. Wash it from the bottom up. And when you finish, starch it so it'll be easier to clean next time.

That's what the men said. They were janitors from 13 states who took a course at Columbia University to learn that cleaning is a science, not a chore.

It's like this, they theorized: When you tackle a wall from the top down, some of the dirty solution dribles on the soiled wall below, leaving a streak even after the wall is cleaned. But if you start at the bottom and some of the solution runs down the wall, it's easy to rinse off and won't stain.

For a slick finish, boil ordinary starch in water for 20 minutes, then cool. Thin the jelly-like substance with water to cream consistency. Applied with a fine brush, it dries to an invisible film, starch instead of paint comes off with the dirt—Pathfinder.

### Very Old Title

**Family Has Held Office Of King's Champion Since 1377**

The holder of that picturesque medieval office known as the "King's Champion" has just died in the United Kingdom. His was the duty in the age of chivalry of riding into Westminster Hall on horseback and in armor to throw down before the coronation banqueters, his knight's gauntlet with the demand that if anyone present challenged the king's right to the throne, he should come out and fight. The last time, however, the custom was observed was at the coronation of Queen Victoria's predecessor, King William the Fourth. The title of King's Champion has been hereditary in the Dynkole family since 1377.

### OUR COMPLETE SHORT STORY—

#### FENCED STRAW

By M. J. COLLINS

Copyright Wheeler Newspaper Syndicate

BILL TAYLOR liked the big city paper, even if it did come out a day late for its rural subscribers. It had lots of funnies, and he got a kick out of them.

Hardly had he settled in his rocking chair on the veranda when Mary, his wife, bustled out with her sewing basket and sat in the other easy chair. By her very attitude he knew that she had something on her mind.

"Do you know that Olive went out with that Clay Malton?" Mary said several minutes later and, preoccupied as he was with the funnies, Bill noticed the emphasis on "that."

Putting his newspaper down, he peered over his glasses at his wife. "What's wrong with that?" he asked mildly. "Clay's his around a mile, I'll admit, but I guess he's all right. I know you would rather see her go out with young Carson. He's a good lad."

"I want you to have a talk with the young lady when she comes home tonight," Mary said firmly. "Forbid her to go out with Clay Malton."

"Can't very well do that," Mary jumped to her feet. "Don't sit there, Bill Taylor, and tell me you're afraid to tell your daughter what to do. All you think about is your prize cows! Your family don't mean a thing to you. Sometimes I wonder why I ever married a farmer. You do it!" She slammed the screen door.

When Olive came home Bill was in the kitchen having a snack. "Why, father?" she exclaimed. "What are you doing up at this hour?"

"One of the cows was sort of sick so I was keeping an eye on her. Want anything to eat?" Olive shook her head.

"Had a good time?" "Instantly she was on the defensive and he knew Mary had been nagging her about going out with Clay Malton."

"Mumsey," said little Brian, "Tommy doesn't know how to swim because his mummy won't let him go near the water."

"Well, Tommy is a very good little boy."

"Yes," answered Brian, thoughtfully, "but he'll get it. Heaven knows it's the first time he fails in."

"How did the Smith wedding go?" "Fine, until the parson asked the bride if she obeyed her husband."

"What happened then?" "She replied, 'Do you think I'm crazy?' and the groom who was in a sort of daze, replied, 'I do.'"

Household: "Why is it that we haven't more money in our savings account?"

Wife: "Do you suppose it's because there's so many ways to spend it and only one way of saving it?"

An old cowboy went to the city and registered at a hotel for the first time in his life. The clerk asked him if he wanted a room with running water.

"Heck, no!" the cowboy yelled. "What do you think I am, a trout?"

"I wish you would shave that monstache off, Henry," said his wife. "You had the Hillyer."

"Don't worry, dear," he murmured meekly. "The neighbors know us—they know I'm no dictator."

**EDUCATION IN INDIA**  
CALCUTTA—A post-graduate course in architecture with special reference to India is being introduced in Calcutta University. The course will provide basic training for industrial designers, sculptors, town-planning technicians, artificers, craftsmen and painters.

**THE ONLY WAY**  
A horse was led into a house in York road, Northampton, through the kitchen and out by the back garden. That was the only way to get it back on the road again after it fell into the basement area of the house. It could not climb up the stairs. The horse, on a milk round, had belted with the cart. The cart broke in two. Only two bottles of milk were spilled. As they were not on the cart, they were not lost.

Annual consumption of gasoline in automobiles alone in the United States amounts to 15,000,000,000 gallons.

### BRASS SHORTAGE

Many Employees Released From Work Owing To Scarcity

MONTREAL.—Canadian Industries Limited in a statement said that, owing to a serious shortage of brass and copper strip, it had been found necessary to curtail operations at the company's ammunition works in Brownsburgh, Que.

Approximately 275 employees of the CIL "Dominion" ammunition division plant will have to be released from employment as a result of this curtailment, the statement said.

The company said that earlier this year it appeared likely that major demands might be met by the end of 1940 and that at the end of July shipments totaled approximately a normal year's supply. However, during May, supplies of brass and copper strip essential to the manufacture of ammunition had ceased entirely, owing to a prolonged strike at the Toronto works of a supplier.

As a result, production had declined at a time of depleted inventories.

Caused by a wartime drop in sporting ammunition manufacture, the present shortage has been aggravated by low stocks and higher stocks throughout the country," the CIL statement added.

### Pickling Husbands

The Following Recipe At This Season Is A Very Good One

"Be careful in your selection, do not choose too young, and take only such as have been reared in a good moral atmosphere. When once decided upon and selected, let that part remain forever settled and give your entire thought to preparation for domestic use."

"Some insist on keeping them in a niche, while others are continually getting them into hot water. This only makes them sour, hard and sometimes bitter."

"For perfect results may be made sweet, good and tender by garnishing with patience, well sweetened with smiles and flavored with kisses to taste; then serve them in a mantle of charity, keep warm with a steady fire of domestic devotion, and serve with peaches and cream. When thus prepared they will keep for years."

"Very nice."

### Fashions

### See How Slimming!

### Useful In Peacetime

Spans of Bailey Bridge Are Being Sold In Britain

The Bailey Bridge, across which Allied troops rode to victory in the recent war, is being turned to peacetime use. Farmers, contractors, factory owners, municipalities and many others are buying the bridging from the Ministry of Supply. The Ministry has 15,000 tons of bridge equipment for sale. Spans available range from 200 feet to 10 feet. It was the Bailey Bridge which enabled British and American Forces to build up supplies in new-own positions with such speed that the Germans were caught on one leg.

### ACCIDENT EAST OF TOWN

An accident occurred last Wednesday night on the road between town and the Highway Service when a light delivery truck driven by Mr. Nielson of Bowden ran into a horse on the road. Mr. Nielson received serious back injuries and had to be taken to Calgary for treatment. The horse was owned by Jim Cathness and was a two-year old filly of racing stock. The animal had to be destroyed.
